

# Self-Service for the Modern Consumer with A Flexible Hybrid Terminal Solution

Consumers want convenience and checkout options to match their individual shopping habits. With the BEETLE /iSCAN EASY Hybrid by Diebold Nixdorf, retailers provide a checkout solution that can be operated either by the consumer or an attendant. This means maximum flexibility, shorter lanes and speedier customer transactions. The compact, flexible and versatile hybrid checkout terminal is designed for both cash and electronic payment methods and integrates seamlessly into your store, offering consumers choice and an improved checkout experience.

## Designed for Today's Busy Consumer

In-store shopping should be simple and fast. A BEETLE /iSCAN EASY Hybrid system can be used as a self-checkout for consumers with small baskets or as attended-checkout to serve many shoppers with huge baskets during peak times. With the push of a button, its easy to switch between "served" and "self-service" mode—making this a best practice in busy stores.

## Adaptable and Customizable

Whether you have a grocery, DIY, pharmacy, convenience or electronics store, the BEETLE /iSCAN EASY Hybrid system is ideal for creating a future-proof, scalable and customer-focused solution. The fully flexible system allows for a customized configuration. The BEETLE /iSCAN EASY Hybrid features best-in-class components in an optimized footprint.

## A Strategic Solution that Delivers Results

Diebold Nixdorf is committed to the seamless, timely deployment of self-checkout systems throughout your store network. Additionally, the TPiSCAN platform-agnostic software easily integrates automated checkout solutions into your existing IT infrastructure, improving efficiency and customer service and offering consumers more choice.

## Features

### APPLICATION

- Hybrid checkout terminal for a wide range of market segments

### ARCHITECTURE THAT MEETS HIGH STANDARDS

- Highly reliable, market-proven technology
- Flexible, modular design for enhanced functionality
- CSA/ADA-compliant
- Easy integration into IT system landscapes with maximum flexibility
- Use of latest ePOS technology, which offers excellent scalability and can easily adapt to the constantly changing retail business environment

### PAYMENT FUNCTIONALITY

- Cash payment via note recycler iCASH 20 and coin recycler CINEO C1010
- Implementation of customized EFT terminals, magnetic-swipe card reader, signature pad, fingerprint scanner and NFC solutions
- Allows for alternative payment options including coupons, vouchers and deposit receipts

### SECURE THE CHECKOUT PROCESS

- Scale ensures security by checking item weight, and includes a flexible bag-holder concept and a self-learning weight database
- Key access for cash components, including housing, cassettes and cash access
- Attendant log-on via magnetic key, barcode, swipe card or NFC
- Status light for first status check
- Deactivation of electronic article surveillance (EAS) integrated into scanner or security scale

### CUSTOMIZE THE TERMINAL'S LOOK

- Flexible, customer-specific implementation options
- Customer-specific color scheme for all metal parts (optional)

## System Options

### PAYMENT FUNCTIONALITY

- Note recycler iCASH 20
- Coin recycler CINEO C1010
- Cashless payments

### SCANNING/ PRINTING FUNCTIONALITIES

- Integration of various scanners and fruit scales (optional)
- Handheld scanner (optional)
- Thermal printer (receipt, MF, coupon)

### CUSTOMER INTERACTION

- 15" LCD TFT projective-capacitive touch screen (format 4:3 or 16:9); 8" non-touch customer display
- Loudspeakers
- Proximity sensor (optional)
- Illumination for input and output slots
- Coupon box

### SYSTEM UNIT

- PC-system BEETLE /M-III

### SECURITY

- Security scale
- Status lights
- EAS deactivation (optional)
- Attendant lock
- NFC-authentication (optional)

## Software Options

- Runs on Windows, Linux, WNLPOS and POSReady
- Option for a self-service application via Diebold Nixdorf's TPISCAN software platform
- Standard interface to common, industry-specific POS applications
- Specific cashier mode to easily switch between a self-service and a cashier mode without the necessity to restart application

## Dimensions

Height: 1,730 mm (68.11 inches)  
Width: 1,200 mm (47.24 inches)  
Depth: 750 mm (29.53 inches)  
Weight: Approx. 150 kg (330.69 lbs)  
dependent on configuration

The look, dimensions, capabilities or other characteristics of this terminal are subject to continual improvement and change.
