

# Migrate Transactions, Maintain Customer Service

As banks seek ways to increase cost-efficiency and enhance customer relations, self-service located in the branch is seen as an increasingly popular tool. Offering functionality via engaging intelligent deposit technology is one way financial institutions (FIs) are re-engaging branch visitors effectively and profitably while migrating transactions away from the teller line.

## Philosophy

ATMs and digital channels have been useful for helping FIs migrate quick exchanges away from the teller line while providing value-added services in a cost-effective footprint. That is why we created the CS 2560—a multifunctional intelligent deposit system that offers around-the-clock, time-saving convenience for customers. With advanced functionality in depositing large or small quantities of cash, bundles of checks or a mix of the two, it is a trusted option for those looking to offer exceptional service to customers. As a part of Diebold Nixdorf's Cash Cycle Management™ Solutions portfolio, the CS 2560 also features an innovative banknote storage system that enables operators to realize closed cash cycles thanks to the ability to interchange cassettes between all cash-dispensing and recycling systems.\*

## Engaging, Efficient Design

The CS 2560 is designed not only for convenience and ease of use, but for simple upkeep, as well. A broad range of operating information is delivered automatically, enabling proactive and efficient system management and service. With high component availability throughout and optimized total cost of ownership, you receive engaging technology with little upkeep required.

## Features

### MEDIA TECHNOLOGY

#### CMD (Cash Media Dispenser)

- Withdrawals of up to 60 notes in a bundle
- Single or bundle reject/retract
- CCMS ready with E2E cassettes

#### Banknote Storage

- 2–5 cassettes
- Max fill level: 300 mm
- Fill-level indicator
- Scalable cassette concept:
- 300 mm (large), 200 mm (small)
- Retract/reject cassette with 2 compartments

#### CCDM (Cash/Check Deposit Module)

- Bundle deposit up to 50 notes/checks
- Metal detection
- MICR and OCR recognition
- Banknote validation in compliance with ECB Article 6
- Options: fit/unfit test
- Max fill level per cassette: 215 mm
- Separate compartment for counterfeit notes/retracts

#### CCDM Mixed Media (Cash/Check Deposit Module)

- Bundle deposit up to 75 notes/checks
- MICR and OCR recognition
- Banknote validation in compliance with ECB Article 6
- Options: fit/unfit test
- Max fill level per cassette: 270 mm
- Separate compartment

### ENHANCED SECURITY

#### Physical

- Consumer awareness mirrors
- Intelligent operator authentication via CryptTA Stick
- Anti-cash-trapping sensors
- Anti-card-trapping functionality
- Anti-manipulation card slot

#### Cyber

- Encrypting PIN Pad
- Optical Security Guard (OSG)
- Secure channel

## System Options

### SECURITY

- Portrait, cash slot and card reader cameras
- Consumer awareness mirrors
- ASKIM
- Multiple-sensor secured cassette
- Ink staining
- PIN Pad Shield
- Security safe
  - Various CEN safes

### DISPLAYS

- 15" XGA color display screen
- Vandal-Resistive Screen with function keys or touchscreen
- High bright/semi bright
- Privacy filter
- 10.4" rear service operator panel

### PROCESSOR

- Celeron, i3, i5

### ACCESSIBILITY

- Headphone jack

### CONSUMER EXPERIENCE

- Branding panels
- Alphanumeric keyboard

### POWER ARCHITECTURE

- Uninterruptable Power Supply (UPS)

### ID DEVICES

- Fingerprint reader
- EMV-ready card reader, Motorized or DIP /
- Contactless card reader
- Barcode scanner 1D/2D

### PRINTERS

- 80 mm enhanced graphical receipt printer with dual paper roll
- Journal / passbook / statement printer

### DISPENSER/DEPOSITORY

- CCDM Cash and Check deposit module
- Coin dispenser (4 or 8-fold count)
- A6 single check scanner

## Dimensions

Height: 1531 mm (60.28 inches)

Width: 792 mm (31.18 inches)

Depth: 848 mm (33.39 inches)
